

# Frugal Fun

## Glowing Ring Toss

Glow sticks are a Halloween staple — they keep your kids safe and visible when out trick or treating, and add to the post-dusk fun. This year, you can keep the party going (and keep the kids distracted from their mountain of candy) with this ghostly version of a classic game! It's also great for fall camping or as a Fall Festival game.

Just push a 14" glow stick into the ground as a goal post, then use glow necklaces as the rings to toss. Of course, you can pick up some cool little Dollar Tree prizes for the winners. For another great Halloween game, hunt for the **Spider Invasion** on this month's spooktacular Value Seekers Club page!
