

# Frugal Fun

## Flour Yard Décor

“Paint” your team name, stars, or any other simple shape across your lawn to welcome guests to a game-day party and to show off your team spirit! Once the festivities are over, wash it away quickly and easily with the garden hose or let the next good rain storm take care of it. You can also use this technique to mark out yard lines for a game of pickup!

### Shop at Dollar Tree – Here’s What You’ll Need:

- Poster Board
- Bag of Flour
- Scissors

### Easy Step-by-Step Directions:

1. Use the poster board to create letter and shape cutouts to be used as stencils.
2. Lay the stencil on the grass. Freshly mowed/shorter lawns work best — if the grass is dry, use a spray bottle to mist a bit of water so the flour will stick better. Use a sifter to spread flour over the cutout (or use your hands).
3. Brush any excess flour that lands on the stencil towards the center and remove the stencil carefully to reveal your flour design.
