# Festive Snowman Place Setting

Does the fork go on the right or the left? Who cares? Here's a clever way to set your table for your holiday party: just flip the placemat 90 degrees and make a snowman! The dinner plate becomes his body and the dessert plate is his head. The fork and spoon become his arms and the knife and a drink napkin transform into a fancy top hat. Accordion fold a dinner napkin and place it around his neck for a scarf. His face and coat buttons can be construction paper, a real carrot and raisins, or a gumdrop and chocolate chips!

Finish off your festive table by making some **Homemade Snow Globes** for the centerpiece — hunt for the directions on this month's Value Seekers Club page.
