## Fall Centerpieces

Welcome fall into your home with a cornucopia of colors in an amazing centerpiece that will look fantastic all season long! Faux flowers don't wilt, require no maintenance (except maybe a little dusting), and since you don't need water to keep them looking fresh, you can use anything you want as a vase filler — rocks or gems, floral moss, even unconventional things like candy corn. The combinations of flowers, vases, and fillers at Dollar Tree are endless, and since it costs so little to make a stunning centerpiece, you can afford to experiment with different combos to match your decorating whims!
